Introduction

The Class Response System (CRS) is an innovative interactive tool designed to enhance student engagement and real-time feedback in educational environments. This manual provides comprehensive guidance for Students on how to provide feedback using the CRS platform.

As a student, you can provide anonymous feedback for your courses and sessions using a unique access key provided by your teacher. Your feedback is crucial for improving the learning experience.

The screenshot shows the homepage of the Class Response System. At the top, there is a navigation bar with 'CRS Feedback System' on the left, 'Login' and 'Get Started' buttons on the right, and a magnifying glass icon. Below the navigation is a large banner with the text 'Class Response System' and 'For an Interactive Online Learning Environment'. To the right of the banner is a circular modal window titled 'CLASS RESPONSE SYSTEM' featuring an illustration of three students interacting with a tablet displaying a survey interface. The modal also includes the text 'Class Response System' and 'For an Interactive Online Learning Environment', along with a 'Get Started' button. At the bottom of the page are two buttons: 'Student Feedback Access →' and 'About Us'.
